BUSINESS SMS

Get your business texting approved

US carriers require every business texting number to be registered. XCLUTEL checks your site, files the registration and watches every stage of approval.

BUILT FOR

- **Businesses texting customers from a company number**
- **Teams whose texts are blocked or filtered**
- **CloudX customers turning on text messaging**

Scan first, free

Paste your website address and get a free scan in about twenty seconds. It lists what to change, with wording ready to paste.

Built in checks

The online application checks your answers against what carrier reviewers reject, so it goes in right the first time.

XCLUTEL files for you

An XCLUTEL engineer writes the wording where needed and files the brand and campaign once your site passes.

We watch every stage

After filing, XCLUTEL actively monitors every stage of approval, from brand registration through campaign review to carrier approval.

GETTING STARTED

XCLUTEL handles it, start to finish

1

Scan your website

Carriers open your site before approving you. The free scan runs those same checks and lists what to fix.

2

Apply online

Answer the guided application in about 20 minutes. Built in checks catch problems before filing.

3

XCLUTEL files and monitors

Our team reviews every application, files the brand and campaign, and watches each stage of approval.
