

## NETWORK SERVICES

XCLUTEL provides customized telecommunication and network services that empower SMBs while protecting them from technical vulnerabilities. Founded in response to a need for a more customer-focused telecommunications provider, XCLUTEL brings a level of responsiveness, expertise and partnership not commonly seen from telecommunications providers.

### MULTIPLE SERVICES. ONE EXCLUSIVE PROVIDER.

XCLUTEL is a single point of contact for all of your company's data and voice connectivity solutions. Our white glove service includes access to our dedicated, responsive service team with all services billed through one, convenient monthly invoice. Discover a better way at Xclutel.com.

*“Xclutel has brought a level of service and support to our business that we just haven't experienced in the past.”*

#### VOICE ACCESS

Place and receive phone calls through many mediums including traditional telephone service lines (POTS), ISDN PRI, SIP Trunks and VoIP. You have access to our design engineers 24/7 to customize your company's connectivity.

#### INTERNET ACCESS

Products include internet access and data bandwidth from DS1 to Gigabit Fiber as well as MPLS and Ethernet for the most cost effective and secure data communications. XCLUTEL makes it possible to run your applications from anywhere in the world.

#### MULTI-SITE SOLUTIONS

Through our vast suite of services, we provide seamless networking, service and support for multiple locations. Each custom solution includes designed redundancy to provide continuous service, even when power is lost.
