

PHONE SYSTEMS

XCLUTEL provides customized telecommunication and network services that empower SMBs while protecting them from technical vulnerabilities. Founded in response to a need for a more customer-focused telecommunications provider, XCLUTEL brings a level of responsiveness, expertise and partnership not commonly seen from telecommunications providers.

MULTIPLE SERVICES. ONE EXCLUSIVE PROVIDER.

XCLUTEL is a single point of contact for all of your company's data and voice connectivity solutions. Our white glove service includes access to our dedicated, responsive service team with all services billed through one, convenient monthly invoice. Discover a better way at Xclutel.com.

“The fact that they are handling our phone systems, phone and internet service and cabling needs under one roof makes our job much easier.”

COMPLETE MOBILITY

Integrate your phone system with desktop or cellular, using call routing, auto-attendants, multi-premise call routing via IP services and more. Our solutions offer scalability and reliability for businesses requiring anywhere from two to hundreds of phone lines.

ADVANCED FEATURES

Increase your efficiency and connectivity with customers with video conferencing and voicemail to email functionality. Enterprise solutions use pure IP telephony solutions or hybrids between TDM and IP endpoints. Advanced call accounting and reporting software packages help monitor productivity.

BUSINESS CONTINUITY

How will customers reach you if your phone lines fail? Our systems include redundancies to keep you in business 24/7/365 through power failures and natural disasters.
